

UXi INTERNATIONAL RUGBY INSTITUTE JUNIOR ACADEMY

Welcome to the UXi Sport Junior Academy programme where we aim to develop **future Springboks!**

INTRODUCING THE C.A.R.D.S. PRINCIPLE:

CREATIVITY

AWARENESS

RESILIENCE

DECISION-MAKING

SELF-ORGANISATION

This professionally developed programme is aimed at the age group U/11 - U/14 players learning a new position and transitioning from junior rugby into a more structured version of the game.

The fundamental knowledge and skill required for a position, interpretation of coach gameplans and mastering an understanding of the age appropriate fitness and conditioning are the building blocks to becoming a professional rugby player.

All Coaches are World Rugby Level 2 certified and led by World Rugby Level 3 professional senior coaches at every institute, with a collective of over one hundred years of rugby coaching experience at national and provincial level.

The UXi International tailor made programme focusses on the following:

Core Master: Learning and perfecting the fundamental skills needed in rugby to successfully accomplish the team objective on both defence and attack. We focus on various styles of passing, decision-making on attack in a variety of match-related scenarios, tackle technique and selection and becoming an expert in the art of the breakdown both on attack and defence

Positional Pioneer: Learning a new position can be challenging and at times intimidating. The programme's position specific training is focussed to coach the understanding of the primary and secondary roles and responsibilities. Confidence will be built to enable players to lead in their age group as innovative, well-conditioned, thought-provoking pioneers.

Conditioning Captain: The concept of conditioning should be associated with the understanding of being the fittest and strongest on the field. The fitness and conditioning coaches will teach and coach the fundamental understanding of why fitness and conditioning are important to not only reduce the risk of injury, but also to assist the player to become fitter, better and stronger.

At this age group rugby should still be fun and unlock the interest to learn more.

As such the programme is based on the CARDS principle that focus on the "coaching through games" concept by World Rugby. The aim is to ensure that the new skills taught are carried over into a match.

All skills in **Core Master** and **Positional Pioneer** are implemented by means of the CARDS principle. This allows the player as a developing athlete, to implement newly taught skills in a structured yet unstructured match-related scenario, while still having fun.

The ultimate GOAL of the Junior Programme is to develop skilled players that can make creative decisions under pressure and executing these decisions with the required tact and skills!

DAYS/TIMES AND DURATION

Monday and Tuesday 15h00-16h30 (90 minutes) to include:

- ▶ Conditioning
- ▶ Position Specific Skills
- ▶ Core Skills

FEES:

DURATION	Registration application fee (once-off)	Month-to-Month	3 month contract (once-off save R500)
