## CAREER PATH FOR A DAIRY FARM SUPERVISOR

Responsible for managing daily operations on a dairy farm to ensure the health, welfare, and productivity of livestock. Supervises and coordinates farm staff, plans and monitors milking schedules, and ensures proper feeding, watering, and housing of animals. Maintains hygiene and safety standards, monitors animal health, and implements measures to prevent disease. Oversees record-keeping, production reporting, and quality control processes to maintain high standards in milk production and farm efficiency. Requires strong leadership, organizational skills, practical knowledge of dairy farming practices, and the ability to apply problem-solving techniques in a farm environment.

## WHAT WILL BE INCLUDED IN OUR COST?

WORKPLACE MONITORING • EXTERNAL INTEGRATED SUMMATIVE ASSESSMENT
